To Whom it May Concern,

THE FOLLOWING PROCEDURE IS REQUIRED TO OBTAIN GAS SERVICE FOR HFUD

Contact the utility either in person or by mail prior to construction with the following information:

1. Name and address of homeowner or builder.
2. Phone number of builder or homeowner to contact during construction.
3. Drawing of proposed location of gas meter, which must be approved by HFUD. The gas meter can **NOT** be under a window or within three (3) feet of any source of ignition including electrical outlets and dryer vents. We will contact the homeowner or builder with approval within 24 hours of contacting HFUD. Once location is determined, meter will not be set until the house is bricked, unless the builder or homeowner wants to be responsible for any damage incurred. Do not plant shrubs to block our access to the meter.
4. List of gas appliances, BTU load of EACH appliance listed on provided sheet.
5. Once we receive the above information then an application must be signed and all fees paid prior to installation. All deposits must be paid in cash or check, all other fees may be paid with credit card if the owner or builder so chooses.
6. Will this be a 4 ounce or 2 pound system? If you provide us with the wrong system and we have to make additional trips to figure out what is needed there will be an additional charge of \$250.00 per trip.
7. In our subdivisions, if our signs that mark service stubs are removed, knocked down or damaged there will be a charge of \$100.00 per hour to locate the stub or re-route the service and the cost of the sign. These costs will be charged to the builder.

TURN ON/UNLOCK & INSPECT/ORANGE & RED TAG PROCEDURES

1. Existing Homes – If a customer calls for Turn On, Unlock or Inspect, customer will have to be present at the home for us to unlock the meter.
 - A. If our service tech finds anything unacceptable the customer will be notified and given an orange or a red tag.

2. New Construction or New Service Homes – When the builder or owner calls for an unlock/inspect one of our service techs will call the builder or owner to set up an appointment to meet.
 - A. When our service tech meets the builder or owner they will walk through together to see what items will be on gas.
 - B. If builder or owner just wants the heat on, all will be inspected to see if all other connections have a cap on the pipe or a valve with a cap on it.
 - C. At that time an orange tag will be filled out of Notice of Potential Hazardous Condition and a date for final reinspection will be made by the builder or owner.
 - D. If our service tech finds anything unacceptable, meter will be left locked off.
 - E. Builder or owner can call office for a re-inspection .

3. Service Charge – A \$25.00 service charge will be charged to customers who are no-shows to any appointments with one of our service techs, unless that customer calls the office prior to the appointment to either re-schedule or to cancel.
